GOVERNOR W.O. BRADI

General Collier Defends Him From the Attacks of a Slanderer!

SOME VERY POINTED WORDS.

torial Race and Present One.

BRADLEY AND McKINLEY.

General Den R. Collier, the Adjutant General, seldom gets excited, but when

the elightest foundation. The charge that Dr. Hunter was defeated for the Senats, or both and of the same cloth es thet Dr. Hunter has a defeated for the Senats, or both and the defeated was contributed to by the reaching of Generor Bradley, is a main closure it, even that he could legitimately for Dr. Hunter. The infimetion that Bradley and contacted with Free-silver Senators or members of the House in any way connacted with the Senatorial reac or otherwise is another dirty feisebood. Under the rule of Generore Worthington it required seventy votes to be had in joint assembly to elect a Senator. The Democrats would not be present to contribute to that number. The highest indices where the senator is the contribute to that number. The highest click, are now busily suggaed in an attempt was adjudged entitled to a seat. Mr. Dunlap refused to take his seat, and the consequence was that at no time or consequence was

when Dr. Hunter could have been

Light Thrown Upon the Last Sena-

The Governor's friends ore naturally sensitive about the things being sold of his allezed candidacy for the Senate end his action with regard to the extre tion on the Square, but is not an appointee of the Executive, made the following interesting remarks about several phases of the situation: "The statement that there is a combi-

be thinks even an insignificant person has done him or his friends a wrong his indignation comes out in very strong language.

To The Courier-Journel correspondent "One William Lyens of Newport seems desirous of rendering himself asticeable by making himself more oficus than usuel, if possible. For months he has there an eaged to slandering the Governor in public interviews. Of course, the been eagged in slandering the Governor in public listerieurs of course, the Governor has not nesticed him. His her of men doing missionary work for harge, however, in his Newport interview in The Courier-Journal demends the course of the co view in The Courier-Journal demends contradiction, only, however, for the beastle of the many persons who do not know him. The statement that the Governor either directly or indirectly discountied to the country of t know him. The statement that the Governor either directly or indirectly caused a Cincinnest newspaper to send out inquiries to members of the Legisla ture saking how they atood in the Sensiterial election or the spacial session or otherwise is a base fabrication, without Dr. Busher use defined for the Senate, or Busher use defined for the Senate, or that his defeat use contributed to by the Markhay of General Readiley is a man. I jubilant tones that the Governor would.

Mr. Duniap refused to take his seet, and the consequence was that at no time could more than sitty-sight Republican toold for Gevernor is the merest both, and votes hen marchield, and this was two even when it is the promote Gevernor is the merest both, and votes abort of a nomination. The two Populists both voted against Dr. Hunter, the compt Poor, whe voted for him once, but interested in the sime we wend to the versus then the vote was one vote short of a small short of sandard the compt Poor, whe voted for him once, but interested in the sime we wend to the versus the other vote was one vote short of Sandard and the interests are far above an verticen. There never was a time those of the state.

"It is said we went no race next year. Pray, how is it to be evelded? All the county officers, members of the Senate and House, Circuit Judges, Commonwealth Attorneys and Clerk of the Court of Appeals are to he elected. The state will boil over with excitement. A race for Governor would he prefereble to a race three years hence, and the Republicens would fare hetter. Besides a rece end a victory would settle the contest, one way or the other, three years from now, because if we do not win the one, we cannot win the other. There is noth-ing plainer than that Governor Bradley need not take his place, if elected, before the 11th of December, 1897, end in this wey an election would be avoided.
There will be no extre session of Congress. If the Dingley Bill can be pessed it will he done this winter, and if not passed it would be idle to attempt to pass it next spring. The only session of the Senate will be to confirm nominations, end this will be unimportant. Governor Hill was elected Senator of New York, end did not take his seat until just in time to prevent a race for Governor

This was regarded as good politics.
"The Governor will cell on extra sea sion when it is proper to do so, and no before. All that is necessary is for it to be called in time to pass the needfai legislation. The tone of those who ere denouncing the Gevernor shows the bed temper that is prevalent. At the last session he esenestly recommended all the necessary legislation in his message. They turned a deaf cer to his plee What evidence heve we now that they would not do the seme thing?

"The temper was hetter when the Leg-islature assembled then it is now. Gov-ernor Bredley is not a candidate for the Senate, but if he desires to be he should and will be elected. The idea that the Governor is en opponent to McKinley and would favor a new perty in Kentucky le preposterous. No men has done more to make the state Republican then Bredloy He has given twenty-seven years of hi iife and expended a fortune to do lt. He hasseriously injured, in fact permanently wrecked, his health. He has been fore most in every breach and fought while meny others faitered end fied. To say that he would do anything to destroy or weaken Republicanism is too absurd to think shout. Cendidly, I ask you, haw would Kentucky Republicanism stand to day if it were not for Bradley? Let every honest Republican ask himself this question, end seriously consider the answer There is now e lot of little fish in the swim, who never could have come to the top had it not been for Bradley, and these little fellows are constantly nibbling at im and bringing themselves in tempt.

is what I want to talk to you about now.

Very few things are so easy to lose and so hard to regain as time.

Is your watch time right? Does it lose time? Perhaps it gains? Either way will keep you guessing.

I repair watches so you don't have to do

you don't have to do any guessing.

There are two reasons why I pay so much attention to watch repairing. I make money out of it of course—that's what I'm in business for—but best thing about it is that it brings good people into the store, and as I do watch work right, and at the right price, it is a convincing argument that the rest of my business is right too.

Watch Repairing, however, is only a side issue. I sell Watches, Diamonds, Jewelry, Clocks and a great variety of beautiful and useful things for gifts of all kinds.

THE official summary of the Electora College shows 272 votes for McKinley and HOBART. Of the twenty-three state giving them ten-Maine, New Hampshire, Vermont, Rhode Island, Connecticut, Delaware, Maryland, West Virginie, Oregon and North Bakota-were thrown in for good measure. McKinkey could have won out without them.

THE Murray Ledger, one of the mo prenonnced Bryan Free-Silver papers in Kentucky, hits from the shoulder when it says: "The Richardson-Chinn-William crowd is trying to raise money to contest the election in Kentucky so they will not lose what they had bet on Ken tneky, and are out in a letter begging funds. If this gang wants to get money to save their stakes let them go down in their pockets and fish it up. The people of Kentucky are not worrying them selves because the state went for McKin LEY by a small majority, and knowing that nothing important now depends on the result in this state they will be ow to donate hard-earned money to save the bacon of a lot of gamblers."
